MASTER PROGRAMME
A, B, C 0-3 :-

A. COMMUNICATE
B. MESSAGE X₁
C. USE LINGUISTIC CODE
C₁ USE PHONIC MEDIUM
C₂ USE TARGET CODE
C₃ USE TRANSFER STRATEGY

MATCH X₂ and X₁ for X₁ = X₂?

CONVERT SEMANTIC INPUT X₂ into message X₂

CONVERT TRANSFER MODEL X₂ into SEMANTIC INPUT X₂

REMOVE NON-TAGGED WORDS FROM TRANSFER MODEL to get TRANSFER MODEL X₂

ACCEPT TRANSFER MODEL X₂

HID HEFT (CLOWN) HE HAS WON

REPLACE WORDS IN TRANSFER MODEL WITH TAGGED WORDS
HE HAS WON

CONVERT TARGET STRUCTURE INTO PHONOLOGICAL STRUCTURE

I Foreign language utterances using the language transfer strategy.

Foreign Language Utterances using the language transfer strategy.

N.B.A "transfer model" is a linearised surface structure comprised of a string of 'words' in the native (source) language with some or all of those words having target language equivalents tagged to them. Only the parent (native language) words normally undergo the morphological changes required by the native language norms.
